

Efficiency Meets *Innovation*

Experience the future of cooking with our cutting-edge kitchen hood technologies

i-Sync

The i-Sync function is an intelligent feature to connect the hood and hob, enabling the hood to automatically activate when the hob is turned on. It also adjusts fan speed in real time to match your cooking. Enjoy hands-free convenience with efficient smoke and odor removal.

BLDC Motor

Delivers powerful suction with high energy efficiency and low noise. The brushless design ensures a longer lifespan, smoother operation, and consistent performance. Making your kitchen hood more reliable, durable, and eco-friendly.

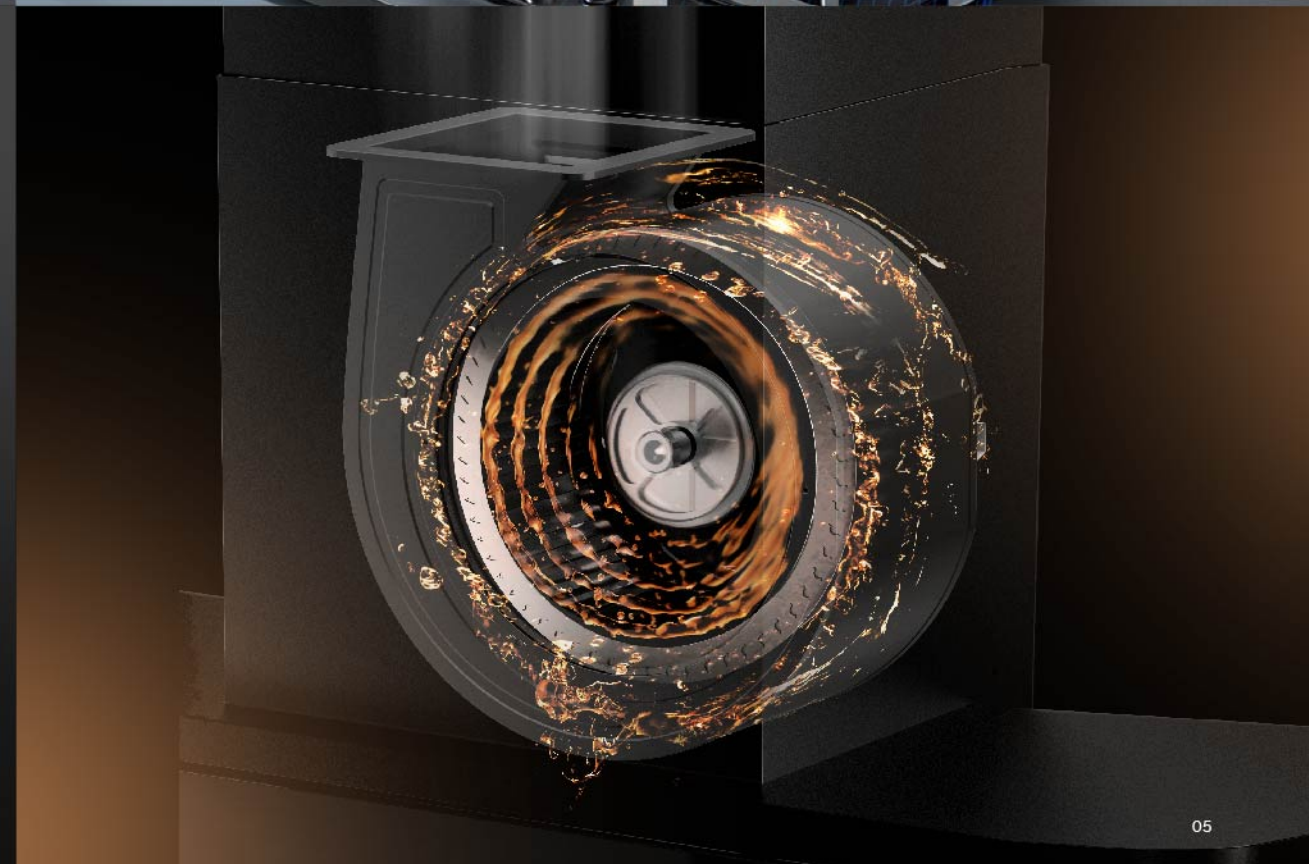

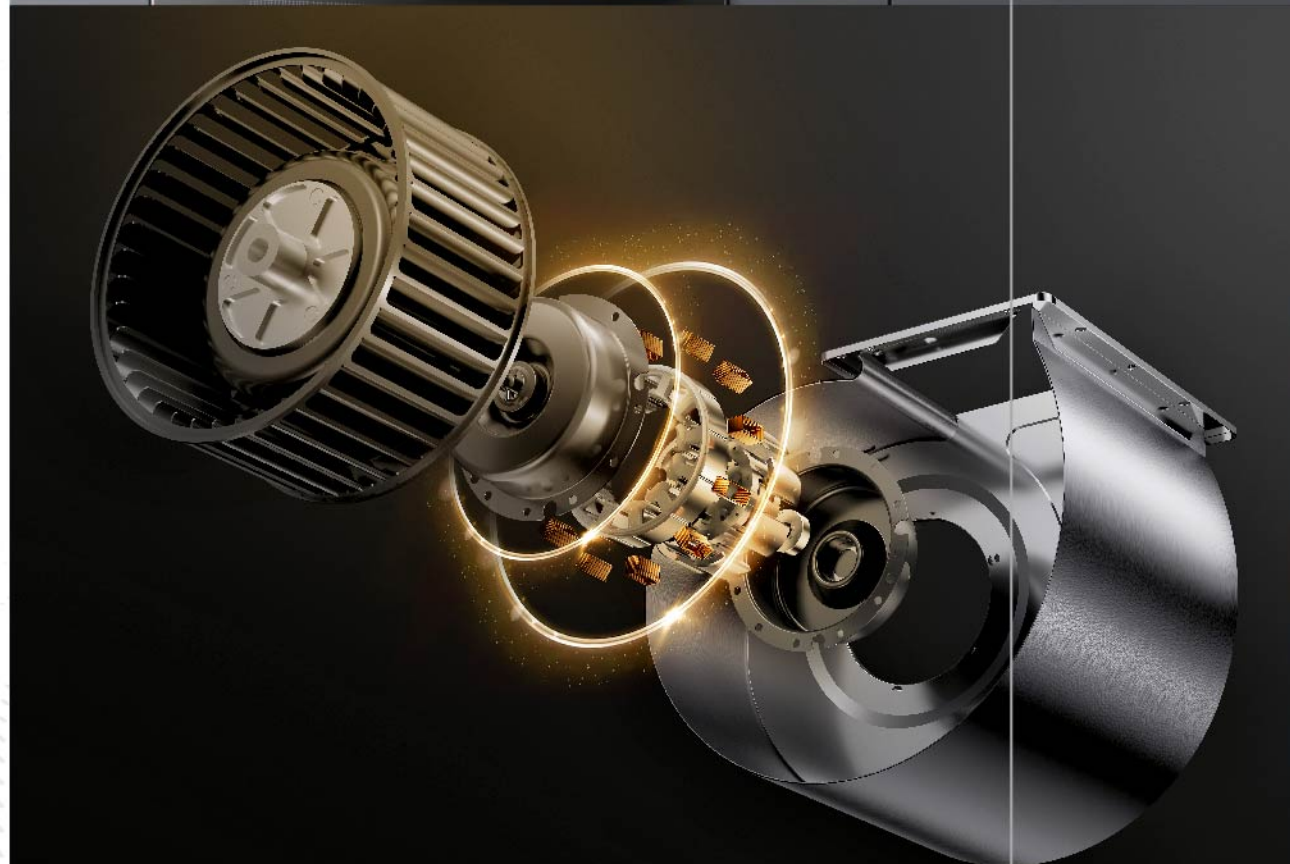

Intelligent Air Sense

An intelligent system that automatically adjusts the kitchen hood's suction power when the cooker hob's burner power increases, ensuring efficient ventilation at all times.

One Touch Auto-Cleaning

Simplifies maintenance with a single press, activating an internal cycle that removes grease and buildup. This keeps the hood running efficiently, extends its lifespan, and minimizes the need for manual cleaning.

SmartCook Collection

Sync. Cook. Delight.

BLDC Motor Technology
Our latest Brushless DC motor technology. Engineered for stability and durability.
