W-YX-17284-120
Additional piece of chimney flue extension of 1200mm height is available for purchase. Suitable for ceiling height up to 11 feet.
WM: RM 386 EM: RM 406

Wave Control
Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

Auto Heat Clean
This feature uses a heating element to break down and eliminate accumulated grease and grime in just 9 minutes. It offers efficient, automatic cleaning that not only extends the lifespan of the cooker hood but also sterilizes the interior by killing bacteria and microorganisms.

Rectifier Panel
Full acceleration speeds up the extractions of smoke and grease.

Magnetic Lock
Rectifier panel can be easily detached for cleaning. Save the hassle of loosening the mounting screws

Delay Timer
The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oil fumes, leaving a clean kitchen without smoke or pungent smells.

Oil Collector
The large oil cup can contain more oil.

90cm Chimney Hood
RH-C1159-PBW

Wave Control
Touchless Smart Motion Sensor allows you to conveniently control the hood when you are inconvenient to touch the control buttons or when hands are oily. You can switch on/off the hood or change the speed settings with just a wave of your hand.

Clean and Fresh
Discover the ultimate solution for a spotless and refreshing kitchen atmosphere. Once activated, Clean and Fresh function will operate 5 mins every hour for up to 24 hours. Say goodbye to grease, odours and stale air, and welcome a new era of cooking comfort and cleanliness.

Delay Timer
The cooker hood will switch off automatically at a preset time, so you can proceed with your meal after cooking is done. Meanwhile, the cooker hood will continue to extract the oil fumes, leaving a clean kitchen without smoke or pungent smells.

Oil Collector
The large oil cup can contain more oil.

Baffle Filter
Grease and moisture will be captured by the specially designed, sloped Baffle Filter. It will subsequently filter and trap them in a specially-built grease collector, located at the rear of the hood.

LED Light
Energy saving and long lasting LED gives out a warm natural light.
