

LOTUS FLAME SERIES

2 Lotus Burner Gas Hob
RB-L2620G-RM

WM: RM 4,699 EM: RM 4,934

Gas Input (LPG) L/R 4.2kW

Product Dimension W 755mm D 435mm H 145mm
Cut-out Dimension W 670mm D 350mm

Lotus Triple Flame

LED Blue Light Knob

Simmer Control

Sealed Burner

Timer

Tempered Glass

Safety Device

Battery Ignition

Cast Iron Pan Support

Lotus Flame

Exclusive triple-deck Lotus Burner design, with 3D flames surrounding and covering the bottom of the pot, ensuring even and complete heat distribution. It heats up quickly and efficiently, without wasting excess energy, meeting first-level heat efficiency standards of 67% (MS 1535 : 2002).

Greenovation

The 'Greenovation' platform is a breakthrough idea that brings together a synergy of 'innovative technology' and 'environmental sustainability'. 'Greenovation' is the new benchmark for real GREEN products by RINNAI. Our products reimagine the cycles of energy consumption and discharges whilst enhancing overall cooking efficiency.

Flame Control

The triple-deck Lotus Flame design allows for precise control of flame intensity, ranging from delicate simmer to powerful high flame for stir-fry, according to your preference. It enables quick and effortless adjustment to achieve the most satisfying flame.

Versatile Flame Settings With Simmer

The higher flame is ideal for stir-frying or deep-frying. The lower flame is ideal for boiling soup, braising and stewing.

Water Boiling Test

*Based on internal test

	Lotus Flame	Brand XYZ
Gas Input	4.2kW	5.0kW
Boiling Time	190 sec	249 sec
Heat Efficiency	67%	55%

Lotus Flame

Exclusive triple-deck Lotus Burner design, with 3D flames surrounding and covering the bottom of the pot, ensuring even and complete heat distribution. It heats up quickly and efficiently, without wasting excess energy, meeting first-level heat efficiency standards of 67% (MS 1535 : 2002).

LED Blue Light Knob

The blue light synchronizes with the intensity of the flame, allowing you to control the heat without bending over.

Dual-burner Timer

Allows you to conveniently set cooking timer from 1 min to 240 min for more controlled cooking on both burners. Flame will auto cut-off when time is up.

Newly Designed Pan Support

The six-legged pan support design avoids direct contact with the flames, providing protection for the pan support and preventing heat dispersion. This ensures that the heat is more focused onto the bottom of the pot.

The step-like anti-leak design

Allows spilled soup to be directed towards tempered glass surface, preventing liquid from seeping into the gas hob casing and cabinet. Thus, prolonging the lifespan of the gas hob and making the countertop easier to clean.

Easy To Clean

The triple-deck burner eliminates the need for a drip pan, burner head or burner ring, so there are fewer parts to wash.

Aluminium Louvre

Oxygen can be drawn in rapidly for more efficient gas burning.

Battery Ignition & Safety Device

Fast and easy, with no electrical wiring. When the flame is accidentally extinguished, the thermostat reacts and shuts off the gas supply to the burner. Easy to replace battery too.

Cast Iron Wok Stand

Additional cast iron wok stand to support a big wok for Asian cooking or stir frying.
