

ELECTRIC OVEN SERIES

60CM Oven
RO-E6533T-EB

WM: RM 7,500 EM: RM 7,875

Overall Dimension W 595mm D 564mm H 595mm
Cut-out Dimension W 560mm D 550mm H 585mm

Temperature setting: 30c - 300c

Super Size Capacity: 77lt	21 Functions	3D Circular Heating
Rotary Knobs With Touch Control Panel	Triple Glazed Cool-to-touch Door	Gentle Open And Close Door
Dynamic Oven Cooling Plus (Reduce Temperature to 60°C)	Telescopic Pull-Out Rail	Air Fry
Gratin	Fast Preheat	EcoClean Enamel
Step Bake	22 Automatic Programmes	Energy Efficiency Class: A+

Functions

3D Hot Air	Pizza System	Air Fry	Grill with Hot Air
Turbo Bake	Large Grill	Top & Bottom Heater	Gentle Bake
Top & Bottom Heater With Fan	Large Grill With Fan	Large Grill & Bottom Heater	Grill With Bottom Heater & Fan
Oven Light			

Automatic Modes

Frozen Bake	Auto Pizza Mode	Slow Bake	Air Fry
-------------	-----------------	-----------	---------

Extra Functions

Aqua Clean	Defrost	Reheating	Plate Warming
------------	---------	-----------	---------------

Automatic Programmes

The oven holds 22 unique recipes to choose between numerous automatic programs. Great for beginners as well as experienced home cooks. With pre-programmed configurations for time, temperature and functions, all the user needs to do is to select their dish, its weight and press start.

Simultaneous Cooking

The circular heating distributes heat evenly so that you can cook different types of food on different shelves simultaneously without worrying that the smells and tastes will be transferred from one dish onto another.

Telescopic Pull-Out Rail

Telescopic rails are the perfect assistant and partner for your oven. They help manoeuvre heavy trays with ease in and out of the oven. This way you don't have to worry about the close exposure to high heat and the risk of spilling or dropping your food.

Gentle Open and Close Door

The smart high quality hinge design means that opening and closing the oven door is smoother and quieter than ever.

*Only for
RO-E6533T-EB & RO-E6523M-EB

Cool-to-Touch Triple Glazed Oven Door

The low-e glass reflects heat back into the oven, boosting safety and efficiency. It helps to keep the oven door cool while it is in use.

*Only for
RO-E6533T-EB & RO-E6523M-EB

Gratin

Gratination process is used in the final stage of baking and will run for 10 minutes, to get a golden yellow crust on the dish. This process protects the dish from drying while giving it a nicer look and better taste.

Air Fry

This method of baking gives the food a crispy crust, without added fat. It is a healthy version of "fast food" with a lower calorie content. Suitable for small cuts of meat, fish, vegetables and pre-prepared frozen products.

Aqua Assisted Cleaning

AquaClean offers great assistance in cleaning the oven cavity. All it takes is to pour 0.4 litre of water into a baking tray and turn AquaClean on after each baking. This function is using bottom heater at 70°C in just 30 minutes. Stains and grease are softened and can be easily wiped away.

Fast Preheat

Charmingly fast, saving time and energy. The oven reaches a temperature of up to 200°C in just 4 minutes, saving 30% of the time needed by standard preheating. A light and sound signal informs when the temperature is right.

77lt Super Size Cavity

The 77lt extra-large cavity offers you extra space for flexible cooking. More spacious oven allows you to cook a larger quantity of food - 46cm wide baking trays.

Removable Door
The glass door can be detached easily so that the oven cavity can be cleaned more easily and thoroughly.

Multifunction
Each function is designed to give you the most ideal cooking method to suit your recipe and to provide the best results. For e.g, Fan & Grill function ensure your large roast is being cooked through.

Extra-Large Cavity
The 70lt extra-large cavity offers you extra space for flexible cooking.

Sensor Touch Timer
You can use the timer to count down the cooking time or program your oven to start/stop at a particular time.

3D Circular Fan
The circular heating distribute heat evenly so that you can cook different types of food on different shelves simultaneously without worrying that the smells and tastes will be transferred from one dish onto another.

Measurements in mm.

* For bench top installation, minimum 5mm ventilation gap is required on both sides of appliance. If oven installed below a hob, minimum 30mm ventilation gap is required between hob and oven or refer to required distance instructed in the hob manufacturer's instruction manual. Follow the higher distance if in doubt.
