HANDCRAFTED SERIES

Double Bowl SSH-2B-04

RM 2,101

Material 304 Grade Stainless Steel
Thickness 1.2mm
Finishing Satin

Overall Dimension 870mm x 440mm
Cut-out Dimensions Overmount 850 x 420 (R10mm)
Undermount 830 x 400 (R10mm)
Bowl Dimensions 450mm x 400mm (B)
350mm x 400mm (S)
Bowl Depth 230mm

Single Bowl SSH-1B-02

RM 1,598

Material 304 Grade Stainless Steel
Thickness 1.2mm
Finishing Satin

Overall Dimension 750mm x 440mm
Cut-out Dimensions Overmount 730 x 420 (R10mm)
Undermount 710 x 400 (R10mm)
Bowl Dimensions 710mm x 400mm (B)
Bowl Depth 230mm

PRESSED BOWL SERIES

Double Bowl SSP-2B-08

RM 987

Material 304 Grade Stainless Steel
Thickness 0.8mm
Finishing Brushed

Overall Dimension 820mm x 450mm
Cut-out Dimensions Overmount 795 x 425(R10mm)
Bowl Dimensions 420mm x 390mm (B)
310mm x 338mm (S)
Bowl Depth 205mm (B) 170mm (S)

Single Bowl SSP-1B-07

RM 683

Material 304 Grade Stainless Steel
Thickness 0.8mm
Finishing Brushed

Overall Dimension 582mm x 482mm
Cut-out Dimensions Overmount 555 x 455(R40mm)
Bowl Dimensions 480mm x 400mm
Bowl Depth 205mm

Material	304 Grade Stainless Steel
Finishing	Hairline Finishing
Cartridge	1/4 Turn Brass Cartridge
Tap Hole	ø 28 mm
Installation	Wall Mounted

PEX Flexible Hose

Encased in 304 Grade Stainless Steel, this flexible 'Cross-Linked Polyethylene' (PEX) hose, together with the 'brass-forged' lock nut, has a prolonged lifespan. It is corrosion and chemical resistant and is able to withstand high water temperature. Most importantly, it is odour-free and safe for drinking water.

Quick & Easy Fit

Installation can be conveniently done from the sink top with any power tool (drill) and a 4mm 'allen key' (provided) to lock it in position. You only need to go underneath the sink for the sole purpose of connecting the attached hose to the water supply. This revolutionary method is remarkably simple. In fact, it can be easily done by any able-bodied person in a matter of minutes.

"Top Mount" Fitting

With the E-Fit system in place, installing the faucet can be done ever so easily by mounting it from the top, as opposed to the arduous conventional way of having it mounted from below the kitchen sink. Now, that's precision engineering at work.
